**Subject:** Water Chemistry from Gold King Mine  
Gold King Mine Discharge Water Chemistry.docx  
Gold King Mine Discharge Water Quality.xlsx

See the attached files with the Gold King water chemistry. The Word version is for Matt to use in the RFP. The Excel version has 3 tabs: GKM chemistry, pond discharge chemistry, and comparison of the two on the same (mostly) date. The comparison shows the % removed after limited pH adjustment and addition of Brennfloc flocculant.

I will update these as additional information is available (sampling is done for each location every other day). Please let me know if you would like additional information.
